

SKAL INTERNATIONAL AUSTRALIA PRESIDENT REPORT SIA NATIONAL ASSEMBLY SUNSHINE COAST

September 2015

Dear Australian Skalleagues

It is now 18 months since I took on the role of President of Skal International Australia and I thank you for the opportunity

I have asked the SIA National Executive to keep all the reports short during this mid year assembly, as I see this meeting as an opportunity for the clubs to have the floor to discuss ideas, issues and perhaps some good solutions.

As this meeting is not an AGM, we have the flexibility to make the agenda more “Club” friendly with training and discussion on matters that will address club issues and member benefits.

As you are all aware we put out a questionnaire after the Broome National Assembly earlier this year and asked a couple of pertinent questions - we printed the results in the July SIA newsletter and have taken notice of all the comments. We have accordingly included the clubs wishes in the agenda for the Sunshine Coast National Assembly

At this point I would like to thank my executive for their work and dedication.

We continue to visit as many clubs as we can within the cost restraints of the budget with many of the Executive using their own air points and covering their own costs.

We continue to focus on ensuring Skal Australia is relevant in today's industry and that relevance suits the industry direction into the future. To that point we have attended the Asia Congress in Manila and addressed the meeting. We have also continued our dialogue with the industry at all levels to ensure Skal stays strong

here in Australia

Finally thanks to all the Clubs and the hard working committees that deliver excellent meeting monthly with enthusiasm and commitment to the Skal organisation.

I do ask all attending the meeting today to speak up and express your ideas, opinions to allow us healthy discussion

Enjoy!

Thank you

Denise Scrafton
President

Skal International Australia
